International application No. PCT/ES01/00374

**SECTION V -----**

The present application seems to satisfy the criterion set forth in Article 33(2) respectively Article 33(3) PCT because the subject-matter of Claims 1 - 4 seems to be new respectively inventive in respect of prior art as defined in the regulations (Rule 64(1)-(3) respectively Rule 65(1)(2) PCT).

As next prior art cited in the search report is regarded DE-A-19859039 which discloses a cover for backs, seats and supports of exercise machines, used as a protector. Even in combination with the prior art of US-A-3916447 for protecting the back against moisture, e.g. sweat, there are missing still essential technical features, namely that the cover body is formed by several transversal elastic bands which is not disclosed in any other opposed document.

Further requirements should be accomplished:

1. Claims 1 is not in the two-part form in accordance with Rule 6.3(b) PCT, which in the present case would be appropriate, with those features known in combination from the prior art (see DE-A-19859039) being placed in a preamble (Rule 6.3(b)(i) PCT) and with the remaining features being included in a characterising part (Rule 6.3(b)(ii) PCT).
2. Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the documents DE-A-19859039 and US-A-3916447 is not mentioned in the description, nor is this document identified therein.
